

En-Safe's Schedule of Services

Professional Services Have Been Provided To Over 3,000 Companies

- En-Safe's certificate courses are designed and approved by a Professional Engineer to meet or exceed legislative and industry standards and best practices.

- Courses strive to meet both Canadian and American safety training standards (i.e., CSA Z1001-13 Occupational health and safety training, and ANSI® Z490.1-2016 ANSI Criteria for Accepted Practices in Safety, Health and Environmental Training) or are in the process of being retooled to meet these standards.

- Training can be customized to include policies, procedures, and/or equipment specific to your organization.

- Open enrollment training is available for certain courses.

- Based on a training program gap analysis, various training levels and durations for selected employees are available.

- Courses have either a legislative or recommended 3 year expiry.

- En-Safe offers a 100% money back guarantee.
